DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Perkins 873'.

The patent to Perkins 873' discloses a method of playing a game of chance. To play Perkins 873' game, a first wager (ante 16) is received from a player, and a second wager (insurance 22) is received from a player. A first set of game indicia is distributed (each player receives two cards dealt face down, and a single community card 18 is dealt face up 20, col. 3, lines 35-36). The first set of game indicia is evaluated according to a first set of game rules to determine a first game outcome (The player's two cards plus the community card makes a three-card hand. Each player decides, based on these three cards, whether to fold or to wager an additional unit, col. 3, lines 43-46), which are 5-card poker game rules. If the first game outcome is a losing outcome, insurance is provided by distributing at least one second set of game indicia (If the 5-card hand of the player is a losing hand and if the player paid the insurance fee 22 at the beginning of game, then the player may purchase a sixth card "Bonus 6", col. 4, lines 5-11) and evaluating the second set of game indicia according to a second set of game rules (A player with a six-card hand mentally forms the best possible 5-card

Art Unit: 3711

hand contained within the six cards, col. 4, lines 22-23), which are 6-card poker game rules. The first set of game indicia is evaluated according to a third set of game rules (A player does not have to beat the hands of other players or have to beat a hand of the dealer. A player wins if the player's hand equals or exceeds a preselected rank which is preferably a pair of 6's according to pay table #1, col. 4, lines 39-59). Thus, Perkins 873' game is conducted to its completion according to the second and third sets of game rules. If a player decides to continue to play according to the first set of game rules (5-card poker rules, col. 3, line 46 to col. 4, line 4), and has a winning outcome, the player is awarded a prize (col. 4, lines 31-38).

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1-21 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Claims 1, 4, 8, 14 and 17 recite "a third set of game rules", "a fourth set of game rules", "a fifth set of game rules", and "a sixth set of game rules". These game rules are not clearly described in the specification. The examples in the specification on clearly describe two sets of game rules. In "Example 1", Stud Poker is the first set of game rules, and draw poker is the second set of game rules. In "Example 3" draw

Art Unit: 3711

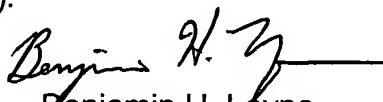

poker is the first set of rules, and baccarat is the second set of rules. There is no, third set of game rules, fourth set of game rules, fifth set of game rules, and sixth set of game rules recited in the specification.

5. Claim 2 recites "a global bet". There is no description of a global bet in the specification.
